Join the conference call: Call-in Number: (800) 944-8766 ; Participant Passcode: 46997#

8:30 – 8:45	Welcome and Introductions <i>Andrea Gill, Hawai'i DBEDT</i>
8:45 – 9:15	Status of HNEI's solar database Entities collecting data on photovoltaic output include HNEI, HECO, NREL and Sandia. HNEI is establishing a database which will be used to house the data it collects. <i>Larry Cutshaw, UH Hawaii Natural Energy Institute(HNEI)</i>
9:15 – 10:15	Battery storage projects A number of battery storage projects are underway in Hawaii involving UH, DBEDT, USDOE, DOD, IPPs and the utilities. A statewide summary and some project updates will be presented. Are there opportunities for coordination? <i>Larry Cutshaw, HNEI</i> <i>Ron Pate, Sandia National Laboratories</i>
10:15 – 10:30	Break
10:30 – 11:00	Research which can help RE siting At our last meeting, the WG noted that research could be done, particularly regarding habitats and the environment, which would be helpful to renewable energy developers and decision makers. Be prepared to brainstorm a list of potential pertinent research. <i>Andrea Gill, Hawai'i DBEDT</i>
11:00 – 11:45	Geothermal energy barriers There is growing interest in expanding geothermal production in Hawaii, as evidenced by HELCO's recent RFI and other activity. We will discuss some of the barriers and actions which can address them and the recent HELCO Request for Information on geothermal development. <i>Mike Kaleikini, Puna Geothermal Venture</i> <i>Jose Dizon, HECO</i> <i>Andrea Gill, Hawai'i DBEDT</i>
11:45 – 12:00	Wrap up & Adjourn
